

2008–09 Dean’s List of Harvard University Extension School Faculty

The instructors listed on the following pages received letters of commendation for distinguished teaching in 2008–09 Extension School courses. They represent a “Dean’s List” of faculty because their student ratings placed them in the top 20 percent of instructors.

The average instructor rating for all 2008–09 courses was 4.25 out of 5.0.

We share this information with you for three reasons. First, the online course evaluations that you complete in the fall and spring serve a purpose. Members of the Extension School staff use them to plan the next year’s programs, to locate problems, and to recognize achievement.

Second, we want to remind you to nominate your own outstanding instructors for one of the four teaching awards: the Petra T. Shattuck Excellence in Teaching Award (in the Liberal Arts), the Carmen S. Bonanno Excellence in Foreign Language Teaching Award, the James E. Conway Excellence in Teaching Writing Award, and the Joanne Fussa Distinguished Teaching Award (for Certificate of Management instructors).

Finally, before choosing your 2009–10 courses, we encourage you to review instructor evaluations located in the Grossman Library (Third Floor, Sever Hall, Harvard Yard) and in Information Services (First Floor, 51 Brattle Street).
