# Lowell Teachers Scholarship

Lowell Scholarships enable middle and high school teachers in New England schools to take one Extension School course per term (fall and spring) for half the published tuition rate. To apply for a Lowell Scholarship, send this form, signed by your school's principal, with the Extension School registration form to 51 Brattle Street, Cambridge, MA 02138-3722. You must register for undergraduate or graduate credit and include contact information for your principal. Scholarships are limited, so you should apply early in the registration period. You cannot register online if you are applying for a Lowell Teachers Scholarship. Scholarships cannot be used for internships, practicum seminars, independent studies, or master's theses or projects, nor can they be combined with any other scholarship or used for January term courses.

Please type or print clearly.
